

Adapter plate for airguns and small bore rifle/pistol 10m, 15m and 50ft for HS25/50 HYBRIDSCORE®

The target HS25/50 can be equipped with an adapter plate for airguns and small bore rifle/pistol.

This enables using the target for airguns and small bore rifle/pistol on the distances 10m, 15m and 50ft.

The front mask is mounted on the provided screws in the back of the adapter plate. The assembly of the target is shown below.
