

During the Olympic Shooting events in Athens between 14th and 22nd of August 2004, 259 SIUS electronic scoring systems, SIUS ranking systems, SIUS video signals and SIUS spectator score boards were in use.

New standards were set by the sophisticated information technology for the spectators in the shooting ranges as well as worldwide through the electronic media.

The 10 meter hall equipped with 80 targets during an air rifle event

The 10 meter control room

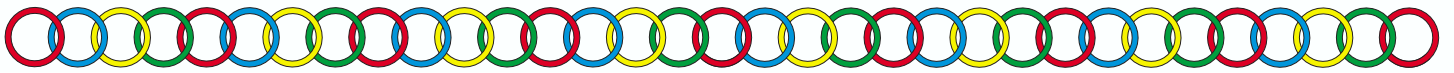

Thanks to spectator monitors and score boards, the audience was permanently updated with the latest results.

Top right: Sport pistol competition in the 25 meter hall, equipped with 50 targets.

3x40 three position match in the 50 meter hall with 80 targets.

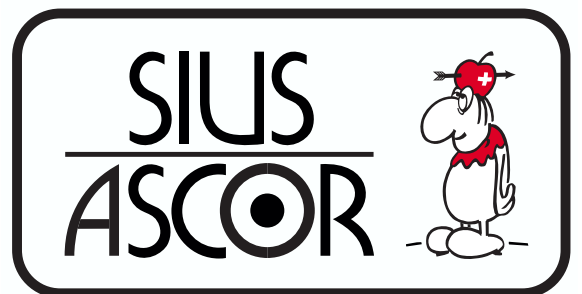

For the first time during Olympic Games all shooting finals were conducted in an indoor Final Hall, equipped with 10 air weapon targets, 30 targets for 25 meter pistol, 20 targets for 50 meter small bore, 6 running targets, 3 extra large projection walls and moving video cameras.

Impressions of the Final Hall.

SCORE	NAME	SCORE	ROUND	TOTAL SCORE
1317	WILSEN	000	5	10
1707	LEE ST	000	10	20
1382	INESHIN	000	13	20
1423	TERREH	000	10	20
1877	DORPELT	000	10	20
2244	ALPMA TO	000	10	20

Also delivered by SIUS: 4 complete Trap + Skeet Ranges equipped with latest technology plus most modern LED spectator boards.

Although the construction works were far behind schedule, the installation of all electronic equipment was finalised in time.

The fourth Olympic Games for the experienced SIUS team. "We know what we do ..."
