

**The Olympic Shooting Events in Sydney were conducted between 16<sup>th</sup> and 22<sup>nd</sup> of September 2000, using 173 SIUS electronic scoring systems, SIUS video signals, SIUS ranking systems and SIUS spectator score boards.**

**Mr. Samaranch, former president of the IOC declared the Olympics in Sydney "the best Games ever"!**

**We are proud of our contribution to this success.**

**SIUS-ASCOR**

**The only System world-wide  
with ISSF authorization  
for all disciplines**

**The 10 Meter Air weapon Range ...**

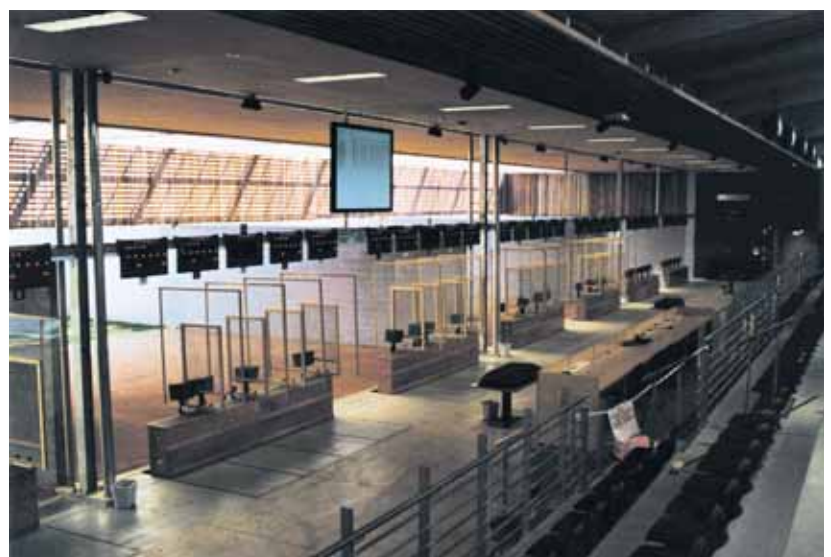

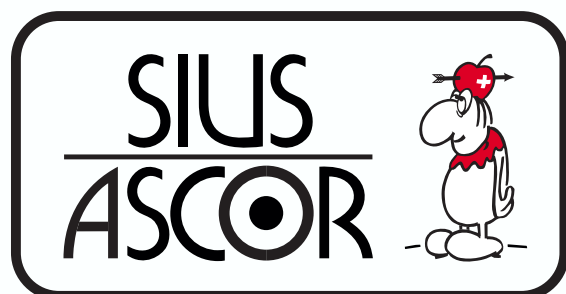

**Also the running target qualifications took place in this hall.**

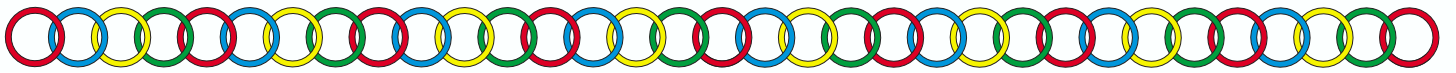

**during a rifle event.**

**On the 25 meter range the women's sport pistol and the men's rapid fire pistol events were carried out.**

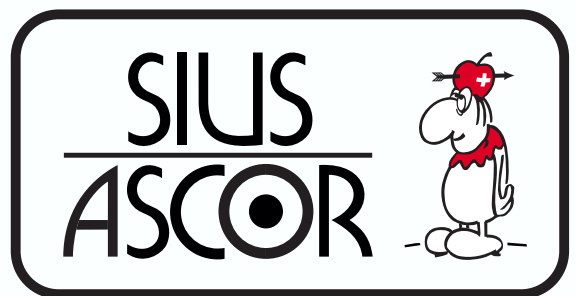

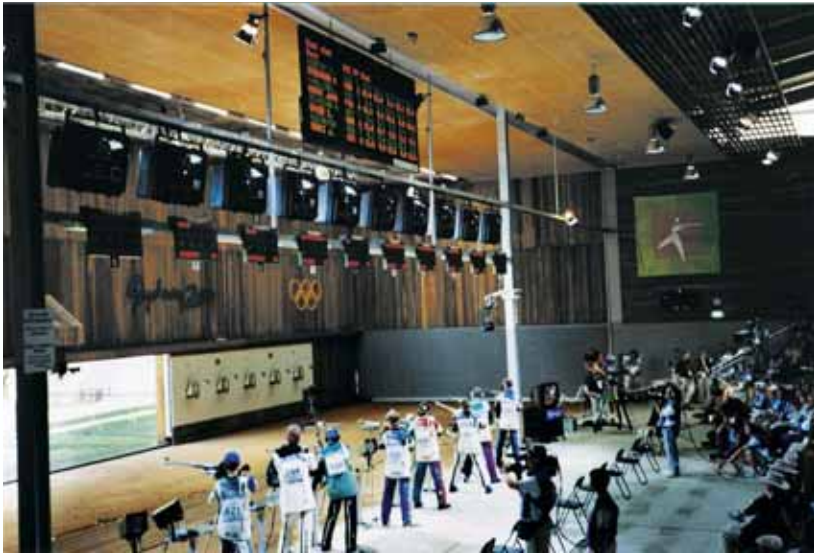

**An imposing row of 60 targets in the 50 meter Range.**

**The 50 meter firing lanes, equipped with individual score boards and a large electronic result table, keeping the spectators up-to-date about the ranking of the actual event.**

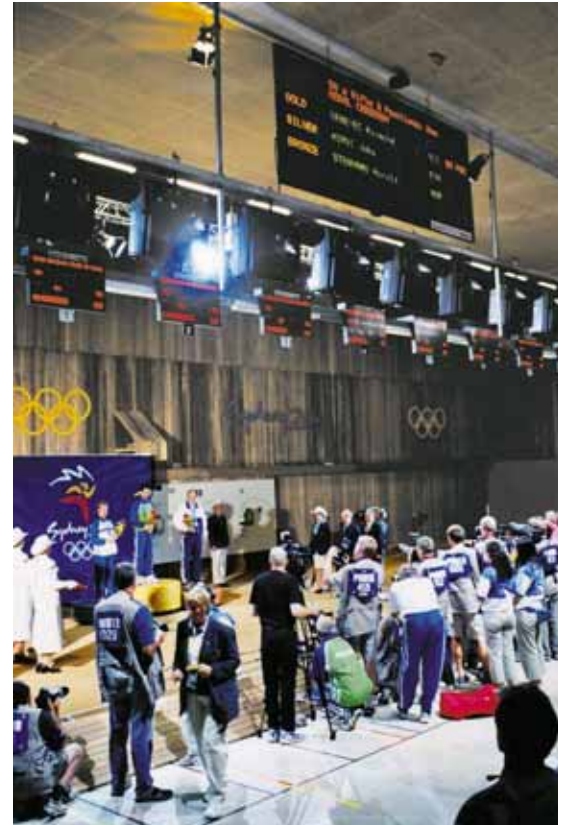

**Trap and Skeet installations of the latest technology were part of the equipment delivered by SIUS AG.**

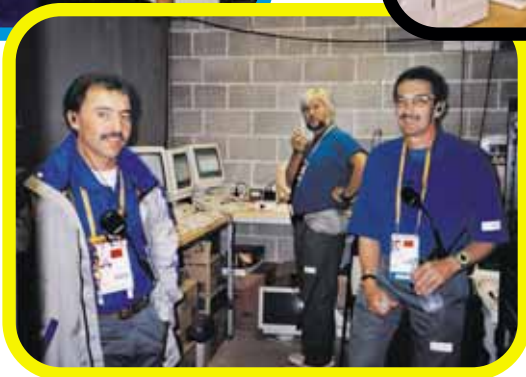

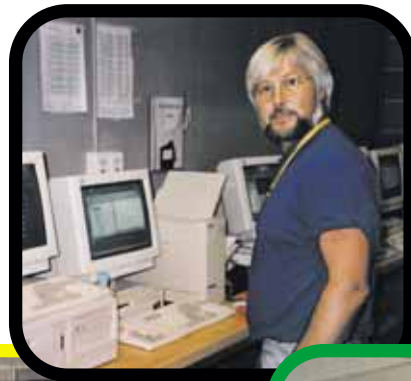

**The Final Hall, equipped with the most sophisticated communication media like individual score boards, big monitors for each shooter as well as a large result table, on which the actual ranking of the event was shown continually. This hall also provided the appropriate setting for all award ceremonies.**

**Impressions of the most demanding and ambitious, but still very pleasant and successful employment of the SIUS crew in Sydney.**
